

INTRODUCTION

The Health Care Association of New Jersey (HCANJ) has met the research and policy needs of long term care providers and has advocated for the people they serve for over five decades. Membership is open to nursing, subacute care, assisted living, adult day health care, comprehensive personal care and residential health care facilities.

Founded in 1949 as the Licensed Nursing Homes Association of New Jersey and called the New Jersey Association of Health Care Facilities from 1973 until 2001, HCANJ has become one of the largest and most respected organizations representing health care providers in the state of New Jersey. The Association works closely with state and federal agencies and with other health care organizations to develop health care policy that will promote high quality, affordable health care services that meet the needs of both providers and their residents.

Associate Membership with HCANJ is available to businesses that provide services or offer products to the long term care profession.

AFFILIATIONS

HCANJ is the New Jersey state affiliate of the American Health Care Association (AHCA), the National Center for Assisted Living (NCAL) and the Assisted Living Federation of America (ALFA), giving members access to a wide network of leaders and resources within the nation's largest federations of long term care providers.
