Profile

United Healthcare Community Plan:

Is a business segment of UnitedHealth Group

Nation’s premier provider of trusted and high-quality personalized public sector health care programs

Serves more than 2.6 million beneficiaries of government health care programs in 24 states and the District of Columbia.

Pioneered 24/7 bilingual Member Services Helpline

Emphasizes preventive health and education
Historically the State of NJ had four waivers:

- ACCAP
- TBI
- GO
- CRPD

Please note that the CCW Waiver is not part of MLTSS.

As of 7/1/2014 the State of NJ is combining the services provided under these four waivers into one waiver, Managed Long Term Care Services and Supports (MLTSS). The benefits covered under this new waiver will move from Fee-for-Service Medicaid to Managed Care. The Managed Care Organizations (MCOs) will be responsible for reimbursement of these services effective 7/1/2014.

Authorizations provided under Fee-for-Service Medicaid will remain in effect during the Continuity of Care period. Assessments will be made by a Care Coordinator and that time a new authorization will be provided to the provider.
Who is Covered?

- Any individuals with Medicaid entering a nursing home for the first time will have their acute and primary health care managed by the MCOs with MLTSS or the Program of All-Inclusive Care for the Elderly (PACE) program. Individuals on MLTSS also will have their acute and primary health care services and nursing home care managed by an MCO.

- Current custodial nursing home residents on Medicaid will remain in a fee-for-service environment. Medicaid beneficiaries living in Special Care Nursing Facilities (SCNFs) as of July 1, 2014 will remain in the fee-for-service environment for two years.

- Any individual who is newly eligible for Medicaid and living in a nursing home after July 1, 2014 will have his/her care managed by an MCO through the MLTSS program. Individuals who enter a SCNF after July 1, 2014 will have their acute and primary health care services and their nursing home care managed by an MCO through the MLTSS program.
Nursing facilities receive a per diem or daily rate for long term custodial care for Medicaid-only members.

Contracted providers bill revenue code 0100, 0119, 0129, 0139, 0149, 0159, and 0169 and receive 100% of the Medicaid daily rate.

The per diem payment includes, but is not limited to the following services:
- Laundry services
- Nutritional services
- Personal care services
- Personal care supplies
- Incontinence supplies
- Rehabilitation and restorative care services
- DME
- Stock medical supplies
- Analgesics, antacids, laxatives, and vitamins
- Wound care supplies
Nursing Facility
Reimbursement: Respite Care

Some nursing facilities are authorized by the state of New Jersey to provide respite care to community-based MLTSS members.

Respite care is the admission of an individual to a nursing facility in order to provide respite to an in-home caregiver to whom the individual is expected to return following the brief respite stay.

Contracted providers qualified to provide respite care bill revenue code 0663 and receive 100% of the Medicaid daily rate.

Claim Submission – Coordination of Benefits (COB)

Coordination of benefits (COB) is used when a member is covered by more than one insurance policy. MCOs must exhaust all other sources of payment prior to remitting payment for a Medicaid/NJ FamilyCare enrollee. Federal and State law requires that Medicaid payments be last dollar coverage and should be utilized only after all other sources of third party liability (TPL) are exhausted.

- If the member has other coverage and UnitedHealthcare Medicaid is secondary, the provider should first submit the claim to primary insurer. Then the secondary claim must be submitted on paper with the Commercial Insurance EOB attached to the claim to UnitedHealthcare.
Claim Payment Appeal Process

To resolve billing, payment, and other administrative disputes, such as:

- Lost/incomplete claim forms or electronic submission
- Requests for additional explanation as to services or treatment rendered by a provider
- Inappropriate or unapproved services initiated by providers
- Any other reason for billing disputes

Claim payment disputes do not require any action by the member.
Claims Payment Appeals Submission Process

- Claim is being resubmitted as a Corrected Claim
- Claim is being resubmitted with Prior Authorization information

Claims Payment Appeals Submission Process

**Formal Claim Payment Appeal:**

If Provider submits a claim payment appeal using this form **within 90 days following receipt of the EOB/PRA** and UHCCP upholds the claim payment denial, the provider has the right to file an external Claims Arbitration via MAXIMUS.

If Provider does not submit the original claim payment appeal on an HCAPPA Form, the provider does not have the right to a Claims Arbitration case; however, the appeal will be processed by UHCCP as an Informal Claim Payment Appeal.

If UHCCP upholds a claim payment denial on an Informal Claim Payment Appeal, there is no 2nd Level of Appeal Claim Payment decisions will be final.
