

Infection control training that comes to you!

Through a grant from the New Jersey Department of Health (NJDOH), the Health Care Association of New Jersey (HCANJ) is pleased to provide infection control training to healthcare personnel.

Our programs are engaging, innovative, effective... and **FREE!** They are suitable for frontline workers as well as members of the public health workforce.

We can present a training at your building *live and in-person*, or you may request a virtual training!

Some of our topics include:

- The Core Elements of Antibiotic Stewardship
- Enhanced Barrier Precautions and Multi Drug Resistant Organisms
- IPC Made Easy, For Everyone
- Mitigating C-Diff
- PPE: Donning and Doffing
- Sepsis Awareness
- How Respiratory Droplets Spread COVID-19
- Basic Science of Viruses

*For more information or to receive this valuable FREE training,
